Cumbre del Sol

38.71437745, 0.15916334252466288

A unique project for one of the last plots of land available in Encinas, an established area in residential Resort Cumbre del Sol, designed to get the best out of the sea views. Its location stands out, mainly, because it allows you to walk to the shopping centre "Adelfas", where you can find services and a range of cuisine and Cumbredel Sol's sports area. It is an ideal location if you want to do some sport, go out for a meal or simply go for a walk. A special project for those who are looking for a property with a unique design. A practical layout with intelligent solutions that manage to make the most of the space. The villa has 3 bedrooms, the main bedroom has a walk-in-closet and an en suite bathroom, the other two bedrooms have a shared bathroom and access to the terrace. There is an open plan kitchen to the living-dining room separated by an island, an extensive porch where you can enjoy long after-dinner conversations, landscaped areas around the terraces, an infinite pool, and many more details that make this property a unique home.
