

New villa from builder in Ciudad Quesada

Ciudad Quesada

38.05647188759273, -0.6842422485351562

Villas La Laguna is a new beautiful residential area in Ciudad Quesada consisting of 51 luxury independent villas. Here we have a selection of fantastic villas with a contemporary and elegant design that are built with the highest standard of materials and finishes. You have the choice between two different house models: The villas have three large bedrooms with built-in wardrobes, and three bathrooms all with floor heating. The living and dining room is large and spacious and there is a modern open kitchen. The best part is the beautiful swimming pool with waterfall surrounded by lovely patio space that is perfect for dinner under the stars on a hot summer night! A large rooftop solarium is optional in Laguna Rosa model and basements are optionals in both models. These villas are located in Ciudad Quesada which started out as a quiet little urbanization that quickly grew into a small town. A 10 minute drive inland from Guardamar you find this charming community that is full of life all year around. Ciudad Quesada is a very international town, but as opposed to other international communities and neighbourhoods, Ciudad Quesada is just as busy during the winter months as summer time. It is an excellent choice for those looking to spend more than a few weeks a year here. You have everything you need within short distances, such as shops, banks, bars, restaurants, golf courses, and several international schools. For example, here you have the Norwegian school. You also have great healthcare facilities and Ciudad Quesada even has its own city council and police, and the fantastic beaches of Guardamar and La Marina are only a 10 minutes drive away from home.
